TESTIMONIAL

"We finish our calves at weight one month earlier, with nearly zero wasted meal. The weight range is much tighter, and our average weight is within a kilo or two of what took an extra month before using Advantage Feeders. Additionally, we are not wasting meal because of the weather or contamination from calf and bird waste, it's just a no-brainer!"

We use the 150HD to fence mount in the shed, the 800HD in both the shed and the paddock, and the M1000HD to easily move around."

Victor Rutherford
P A NZ Ltd,
Dargaville, North Island

TWO YEAR WARRANTY

You can rest assured that your feeders will last a long time. A two year warranty on all feeding products guarantees that they will be fit for purpose based on them having fair treatment.*

LOYAL PROGRAM

We reward our loyal customer by offering retrospective discounts when you reach a certain number of products.*

FREE FREIGHT

We offer free delivery to pick-up locations throughout New Zealand. Check the locations to the left for the one closest to you. Please note: some collection locations will require the customer to organise a local business to receive the products on their behalf.
