## TESTIMONIAL

"We finish our calves at weight one month earlier, with nearly zero wasted meal. The weight range is much tighter, and our average weight is within a kilo or two of what took an extra month before using Advantage Feeders. Additionally, we are not wasting meal because of the weather or contamination from calf and bird waste, it's just a no-brainer!"

We use the 150HD to fence mount in the shed, the 800HD in both the shed and the paddock and the M1000HD to easily move around paddocks."
